PROBLEM STATEMENT

Many individuals struggle to showcase their skills and projects effectively using only resumes or social media. To solve this, a **personal portfolio website** is needed that highlights personal details, projects, and contact options in a professional, user-friendly, and responsive way.

PROJECT OVERVIEW

In today's digital era, having an online presence is essential to showcase skills and achievements. Traditional resumes and social media profiles are often limited and fail to present an individual's work in an engaging way. A personal portfolio website provides a professional platform to highlight personal details, projects, and contact information, helping to create a strong digital identity and better career opportunities.

WHO ARE THE END USERS?

Potential employers/recruiters – to evaluate your skills, projects, and contact you.
Clients – if you plan to do freelancing or project-based work.
Peers, mentors, and collaborators – who may want to view your work and connect.
General visitors – anyone interested in learning more about you and your capabilities.

.

TOOLS AND TECHNIQUES

•**HTML** – to create the structure of the website.
•**CSS** – to design and style the pages.
•**JavaScript** – to add interactivity, like the contact form.
•**Images** – used for pro
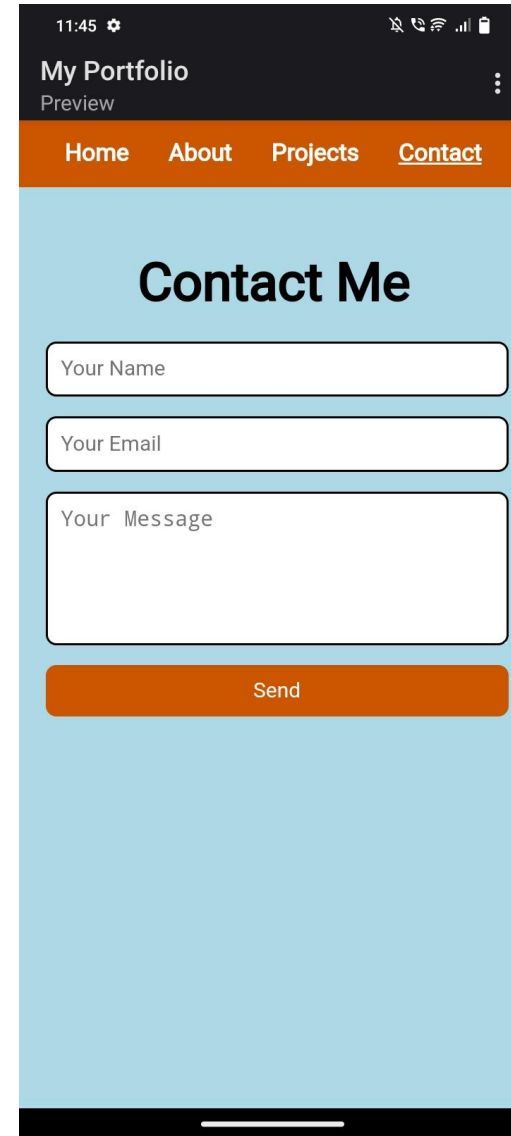

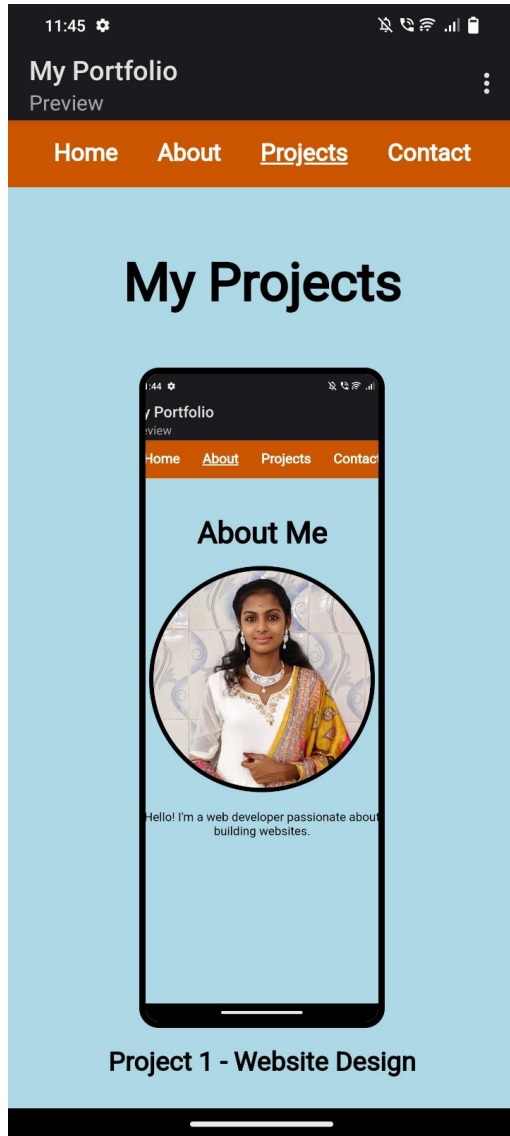

POTFOLIO DESIGN AND LAYOUT

- **Home Section** – welcome message and introduction.
- **About Section** – profile photo and personal details.
- **Navigation Bar** – fixed at the top with links to all sections.
- **Projects Section** – project cards with images and descriptions.
- **Contact Section** – contact form for communication.
- **Design Style** – clean, responsive, and user-friendly with light colors.

FEATURES AND FUNCTIONALITY

- **Fixed Navigation Bar** – easy access to all sections.
- **Smooth Scrolling** – user-friendly navigation experience.
- **About Section** – shows profile picture and personal details.
- **Projects Section** – displays project images with descriptions.
- **Contact Form** – allows users to send messages easily.
- **Success Message** – shows confirmation when form is submitted.
- **Responsive Design** – works on desktop, tablet, and mobile devices.
